

Product Requirements Document (PRD)

NexGenius Solutions Website

Version: 1.0

Company: NexGenius Solutions

Product Type: AI Startup Website

Target Launch: MVP

1. Overview

Product Name

NexGenius Solutions

Vision

NexGenius Solutions is an AI startup that helps businesses automate operations, improve customer experience, and build intelligent digital products using Agentic AI.

Our goal is to become a trusted AI partner for businesses in **Pakistan** and **international markets** by delivering scalable AI solutions, custom software, and automation services.

2. Business Goals

Primary Goals

- Build trust with potential clients
 - Generate qualified leads
 - Showcase AI expertise
 - Rank on Google through SEO
 - Convert website visitors into meetings
 - Support both Pakistani and international businesses
-

3. Target Audience

Pakistan

- Startups
- Software Houses
- Agencies
- E-commerce Brands
- Healthcare
- Education
- Real Estate
- SMEs

International

- USA
- UK
- Canada
- Australia
- UAE
- Europe

Target Decision Makers

- Founders
 - CEOs
 - CTOs
 - Marketing Managers
 - Operations Managers
 - Business Owners
-

4. Technology Stack

Frontend

- Next.js
 - TypeScript
 - Tailwind CSS
 - Shadcn UI
 - Framer Motion
-

Backend

Recommendation

Yes, build a lightweight backend.

Reason:

Without a backend:

- difficult email handling
- no spam protection
- no logging
- no analytics
- difficult future integrations

Recommended:

- Next.js API Routes
- Nodemailer
- Resend OR Brevo
- Google reCAPTCHA
- Environment Variables

A separate Node.js backend is **not required** for MVP.

Hosting

Frontend

- Vercel

Domain

- nexgeniussolutions.com

Email

- hello@nexgeniussolutions.com
-

 - Monthly qualified leads
 - International client inquiries
 - High conversion from website visitors to consultations
-

Final Vision

NexGenius Solutions will serve as a premium digital storefront that positions the company as a trusted AI partner. The website will educate visitors, showcase expertise, generate qualified leads through contact forms and WhatsApp, support long-term SEO with a blog, and provide a scalable foundation for future AI-powered features as the business grows.
